

Call For Abstracts

15TH IUAPPA
WORLD CLEAN
AIR CONGRESS

VANCOUVER
2010
September 12-16

15th International Union of Air Pollution Prevention and Environmental
Protection Association's World Clean Air Congress

September 12-16, 2010
Vancouver, British Columbia

Conference Theme:

Achieving Environmental Sustainability in a Resource Hungry World

The 2010 IUAPPA Congress theme of "Achieving Environmental Sustainability in a Resource Hungry World" recognizes the need for holistic management approaches to effectively mitigate potential water, food, energy, and environmental challenges. This Congress will bring together specialists from academia, industry, consulting, environmental advocacy groups, and government to present innovative ways to improve air quality, reduce greenhouse gas emissions, and minimize environmental impacts. The program will examine international, national, and local-scale issues facing both emerging and developed economies.

Dates to Remember

Abstract Submission Deadline: March 12, 2010

Author Notifications: May 1, 2010

Final Paper Deadline: July 30, 2010

Conference Early Registration Deadline: August 17, 2010

World Clean Air Congress: September 12-16, 2010

For more information, visit the conference Web site at

Congress Topics:

To address the theme of *Achieving Environmental Sustainability in a Resource Hungry World*, the Congress will be organized along four main tracks: Sustainability, Science, Policy, and Industry. Plenary presentations discussing the fundamental issues associated with each track will provide a basis for the papers that follow. The organizers will consider all relevant aspects related to the Congress theme. Suggested topics include:

Sustainability

- Sustainable transport and development
- Renewable energy
- Life cycle assessment
- Impact of climate change on food and energy resources
- Social impacts of pollutants
- Public engagement
- Novel approaches to address global change impacts
- Waste management

Science

- Ambient monitoring and field studies
- Air quality and meteorological modeling
- Emissions and inventory development
- Regional air quality issues
- Urban air quality issues
- Measurement and analytical methods
- Indoor air quality
- Climate change impacts

Policy

- Co-benefit strategies
- Risk assessment and exposure
- Developing world regulatory issues
- Greenhouse gas assessment
- African vs. Asian initiatives
- Economic implications of environmental policies
- Land use and transportation policy
- Novel approaches to environmental regulation

Industry

- Compliance issues
- Monitoring and assessment
- Control technologies
- Shipping and port impacts
- Distributed power
- Issues impacting businesses
- Pollution prevention
- Sustainable production

Abstract Selection

Abstracts of 250 words or less should be submitted via the online abstract management system by March 12, 2010. Instructions can be found on the conference Web site at www.iuappa2010.com. Contributed abstracts will undergo critical review for originality, technical content, objectivity, and absence of commercialism. Authors of abstracts approved for presentation will be notified of acceptance by May 1, 2010. Accepted papers are required to be submitted in the Congress format by July 30, 2010. Any author who does not meet all published deadlines and requirements may forfeit their opportunity to present the paper at the conference, and it will not be included in the conference proceedings. Please contact Alan Gertler, Technical Program Chair, at alan.gertler@dri.edu / +1-775-674-7061 or Lisa Breese, A&WMA Programs Associate, at lbreese@awma.org / +1-412-904-6004 with any questions.
